### Your submission here:

- ① Children should have a vote and give members of parliament fresh ideas and should be voted ~~as~~ as members of parliament and be able to make decisions across the world!
- ② If you don't believe that children ~~will~~ will be good for the job and just mess around, then listen to this! Some children care about murders and Nuclear war and crises across the world in other words we are passionate and if you still don't believe me then ask others because I know that ~~oh~~ they'll agree!
- ③ We would be good because we are innocent and haven't been trained in a certain way of thinking which gives us a free mind to come up with extra ideas that come from us and put more imagination into the world and remind us who we are!
- ④ Children have more ideas because we are more ~~imaginative~~ imaginative and think that anything is possible where-as adults have experienced things go wrong!
