### Maths Homework task: Written multiplication:

This week the children have been developing their skills with written multiplication. We would like them to consolidate their learning by completing the given questions. Please look at the example calculations given which help to explain the method used:

Short multiplication for multiplying by a single digit

$$\begin{array}{r}
 3652 \\
 \times \quad 8 \\
 \hline
 29216 \\
 54 \phantom{0}
 \end{array}$$

Moving towards more complex numbers:

$$\begin{array}{r}
 1234 \\
 \times \quad 36 \\
 \hline
 7404 \quad (1234 \times 6) \\
 37020 \quad (1234 \times 30) \\
 \hline
 44424
 \end{array}$$
