• English: Narrative story writing

Out of the corner of his eye he could see it: the bird had spotted him. Continuing to beat his wings ferociously, managing to continue flying in a straight line (despite the feeling of panic), the wasp thought about how he could escape the situation. He had been in many close shaves before, but none quite so close as this.

He knew the bird would strike at any moment, lunging at him with its razor-sharp beak...

Can you continue the story? You could write it from the perspective of the bird or the wasp.

D&T: - using paper to create game pieces and a dice, create a Romans board game. Remember to include Roman Gods, Roman road short cuts (straight roads), Roman battles and emperors, Roman Baths, and Roman inventions.
