

# Mary Anning's life Biography 19/05/2020

Born: 21.05.1799

Death: 9.03.1847

Mary Anning was good at spotting fossils. Her father taught her how to get fossils out of rocks using a hammer and chisel gently. Everyday they went to the beach to find fossils. She ~~took~~ knew she had some rocks that were special. Mary and her brother would sell one fossil for one penny. There was a lady called Elizabeth Philop who loved fossils. She took some fossils and gave Mary a book all about fossils. The book told her that the fossils are from creatures a million years ago. She was famous of being really good at fossil hunter. She found prehistoric fish, giant sea-reptile, a flying reptile. She also found a fossil out of the ground called a Ichthyosaurus or short saying - fish - lizard.

Her father had a fall from a cliff when Mary was 12 years old. After that, Mary and her brother became poorer. Mary was excited to go to the beach everyday because of the fossils book.
