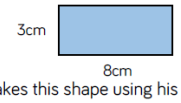
Wednesday 3 Star Maths

This week you are going to calculate some perimeters. Later in the week you will be using this knowledge and skills to design your own zoo or farm!

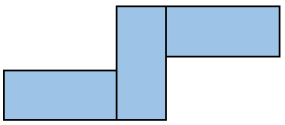
Solve the following questions, explain your reasons in your Maths book:

1.

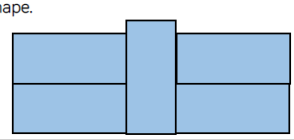
Bob has some rectangles all the same size.



He makes this shape using his rectangles.
What is the perimeter?



He makes another shape using the same rectangles. Calculate the perimeter of this shape.



2.

Always, sometimes, never.
When all the sides of a rectangle are odd numbers, the perimeter is even.
Prove it.
