

## **My shotgun shooting instructions**

### **Equipment**

.gun

.cartridges

.game carrier

.drink

.food

.Decoys

.Warm jacket

.gun dog( if possible )

.hide

.Wellies

.hopper

.magnet

.flapper

.Gun case

.seat

## **Preparation**

Firstly, get your wellies on.

Secondly, get your gun and put it in the case.

Next, get ready by putting your jacket and coat on, depending on the weather.

After that, get your cartridge bag and put the cartridges inside it.

After, load the car and you can go shooting but remember to ring the farmer first so you have permission.

## **Setting up the hide**

Firstly, you get the hide poles and put them in the ground.

Next, get the net and hook it up to the poles.

After, get some twigs and put them at the bottom of the hide to make it more camouflage.

Once the hide is done get inside and sit down and wait and also be quiet so you don't scare the birds away.

## **Setting up the pigeon decoys**

To set up the pigeon decoys you have to put them the way the wind is blowing and stick them in the ground with a plastic pole. Make sure that they are in a pattern.

## **Method**

Get the gun out of the gun case.

LIAM BEARDMORE

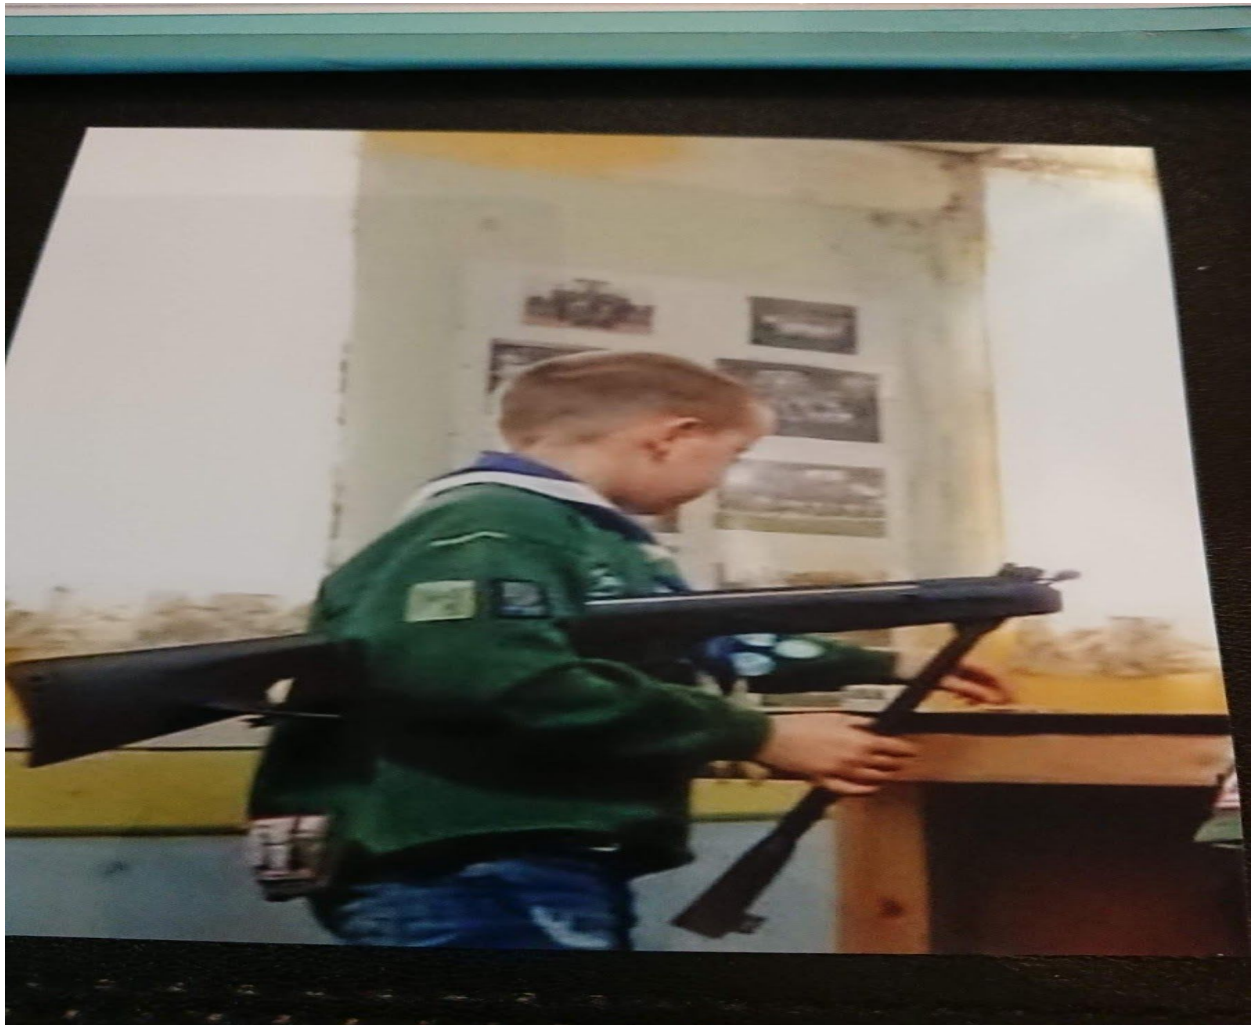

Load the gun.

When a bird flies by, lift the gun and lean forward and make sure that the tip of the gun is an inch. in front of the bird otherwise you will miss.

Pull the trigger when you are ready.

Just follow these instructions and you will be able to shoot in no time!

This is a picture of me shooting at cubs for a competition with other cub packs.
