

Oskar the High Peak Otter says: families have fun with **MARBLING!**

you will need:

washing up bowl
tap water

vegetable cooking oil
food colouring

glass jars with lids

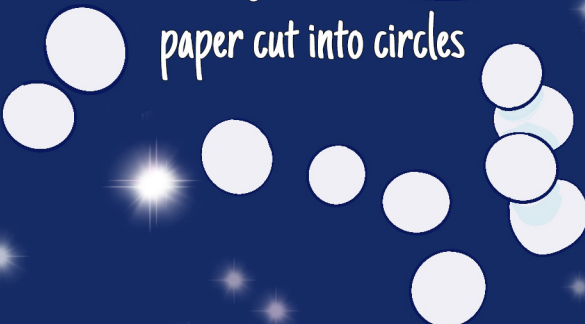

teaspoons

writing ink

paper cut into circles

what to do:

1. put some oil and food colouring into an empty glass jar and shake (make up several pots of different coloured oils)

2. fill the washing up bowl with tap water and drop some of the coloured oils onto the surface using a teaspoon

3. lay a disc of paper on top

4. lift to reveal your **MARBLED PLANET**

Oskar says,
"Your planet will
take a while to dry
but when it has
you can sellotape
it to your bedroom
window!"

can you
give your
planet a
name?
