Follow this recipe carefully and you will make delicious cheese on toast.

You need ...

100g cheddar cheese, grated
2 thick slices of bread
butter

Steps

1. Switch on the oven grill.
2. Place the bread on the grill pan and put it under the grill.
3. When the bread is golden brown, take it out from under the grill.
4. Spread a thin layer of butter on the untoasted sides of the bread. *Do not use too much butter or the bread will go soggy.*

6. Then put the bread and cheese back under the grill.
7. When the cheese melts and turns a golden brown, carefully remove from under the grill.

Eat and enjoy!
