

Maths- fractions

Today we will look at how to define a fraction, identifying the key vocabulary in fractions and how we can represent fractions using a wide range of devices.
You will need to identify if shapes represent fractions based on the correct definitions.

LIVE LESSON

5L 9-10am

5H 10-11am

5M 11-12pm

To write a New Year poem.

Today you are going to use the ideas and vocabulary that you have gathered over the previous two days to write a New Year poem of your own.
You are going to do a rough, edited, messy first draft. Then you are going to write up a neat version, maybe even with an illustration.

English

Year 5 Home learning

13/1/21

Reading

Today you are going to sort a selection of adverbials based on Alien Isle chapter 1, deciding whether they are adverbials of time, place or manner.

Foundation - Science

Following yesterdays live lesson, sort the given items into spherical or flat.

Answer the given questions given – write in full sentences in your books.

This task is split into 1* 2* or 3* so please make sure you are working on the correct ability grouping.
