

you see living there! Before graduating from the university of Nates What job were you hoping to do if you weren't successful as a pilot? How did you overcome your challenges of becoming a pilot? Did you like studying art in Paris or dislike Ecole du Louvre in Paris?

In 1938 did you see naps making Paul Aerial? When you worked in world war II you must have felt worried because of what was going on. Also were you happy when you got your pilot licence and when you got your military pilot licence you must have been super excited.

The Harmon International happy must be hard to win but I don't know how you have somehow won it 4 times! I think that you must have loved listening to your life story and people you inspired. Also
