

Maths

Today we will follow on from our work on area and perimeter looking how to calculate the area and perimeter of squares without a grid. We will look at the correct method and apply it to missing number problems as a form of reasoning.

Live lesson

5L- 9am

5H-10am

5M-11am

English

To plan my explanation text about my invention.

Today you are going to create a clear and detailed plan for your explanation about you Wallace and Gromit style cracking contraption that you invented last week.

You have already written the introduction (with Miss Hardy on Thursday) so you now need to plan the remaining paragraphs.

Year 5 Home learning 01/3/21

Foundation; Art: Islamic Geometric Patterns.

To identify and talk about different forms of Islamic art and create my own geometric pattern based on traditional techniques.

Reading

Following chapter 2 – you need to identify who said what and why.

You need to read the pieces of dialogue, then write a sentence to explain who said these words and what they were talking about.

Attached to this email is a copy of chapter 2 in case you need to refresh your memory of the chapter.

Follow the given slides. You are going to learn how to create your own geometric patterns.

You are going to 1) identify geometric patterns, vegetal patterns and calligraphy in different examples of Islamic art, 2) identify and explain where different forms of Islamic art was used and 3) create your own early Islamic style geometric pattern.

You will be surprised how easy it is to build up a beautiful, complicated design of your own!
