

Maths

Today our learning looks at simplifying fractions by finding the greatest common factor.

We shall revisit factors and common factors, as well as finding which one is largest. Then use this information to simplify a fraction into its simplest term.

English

To create a final draft of my instructions.

Today you are going to proof-read, edit and write a final draft of your instructions. This needs to include an eye-catching title, diagrams or pictures and top tips or warnings.

Remember, a final draft of something needs to be perfect! So take your time, concentrate on your handwriting and make sure that you are proud of your finished work.

Reading

Now we have finished the book we would like you to complete the making connections sheet.

Think about this story:

1. How does it mirror another text you have read? Is it similar? How?
2. How does this text reflect in your life? How do you connect with this story? Have you experienced anything similar?
3. How does this text create a window into your World? How does this story relate to the wider World? Does it shine a light on any current issues? How?

To create strong passwords

Why is it important keep passwords to ourselves? Why is there a need for passwords.

Work through the given slides and complete the given activity.

So the PowerPoint works correctly you will need to watch it in PowerPoint! The PDF doesn't work as a show correctly, but we have sent it home IF your device doesn't allow PowerPoint!
