

Today the lesson will revisit converting fractions from mixed number to improper and vice versa, with opportunities to decide which method needs applying. Follow the help sheets and video to remind yourself from last half term.

To plan and write the introduction to my explanation text.

Today we are going to write the first paragraph of our introductions, making sure we include all the features that we have learnt about earlier this week.

**Teams:** 5H 9.00am  
5M 10.00am  
5L 11.00am

**Year 5**  
**Home learning**  
**25/2/21**

Foundation; Science: Night and Day

Art and description

Draw three cartoon “mug shots” of the main characters, then write an interesting and informative caption to go with each of them.

Draw and write your “mug shots” into your home learning books.

Answer the set questions and then complete the time zones activity.

Remember a time zone is... *“an area that observes a uniform standard time for legal, commercial and social purposes. Time zones tend to follow the boundaries between countries and their subdivisions instead of strictly following longitude, because it is convenient for areas in frequent communication to keep the same time.”*

This activity can be completed by hand in home learning books.
