

Maths

This lesson is all about adding mixed number fractions with the same denominator.
Visit two methods and complete fluency questions based on both.

English

To understand and use apostrophes correctly.

In today's live lesson we are going to revise what apostrophes look like and the two uses for them

- contractions
- possession

We are then going to do some activities to practise using them correctly.
We will also hopefully have time to share some of our instructions work from yesterday!

Teams: 5H 9.00am
5M 10.00am
5L 11.00am

Year 5 Home learning 11/02/21

Foundation: ICT; E-Safety

To recognise when, why and how photographs we see online may have been edited.

For today's lesson you will need to be able to recognise changes that have been made to an original photograph, digitally alter a photograph, understand that not everything I see online is true and be able to explain how false photographs can make people feel bad about themselves.

Follow the given slides and complete the shown activities.

So the PowerPoint works correctly you will need to watch it in PowerPoint! The PDF doesn't work as a show correctly, but we have sent it home IF your device doesn't allow PowerPoint!

Reading

As we are so close to half term – we don't want to start a new book just yet, so today and tomorrow you have stand alone Reading Comprehension activities to complete.

Today's reading comprehension is all about this half terms Courageous Advocate, which you should have completed some work on last week.

Read the given information about your Courageous Advocate and answer the given questions. This activity is split into 1* 2* and 3*, so please suit the reading and the activity suited to you!

Remember 5M – Gandhi, 5L – Obama & 5H – Pankhurst
