Figure Me Out!

My Age:

13×3

My Shoe Size:

$36 \div 4$

My Birth Month:

$77 \div 7$

This is Me:

My Birthdate:

$46 \div 2$

The number of people in my family:

$14 \div 2$

The number of letters in my name:

3×4

The number of pets I own:

$18 \div 9$

The number of sports games I've been to:

2×2

Use Maths to create your very own Maths Profile. Fill in the boxes on the template using number sentences.

For example, if you are 11 years old – why not represent it as 'the fifth prime number'?

If you have 5 people in your family – you could write: the square root of 25.

If you live at number 75 – you could write $\frac{3}{4}$ of 100.

Try to be as creative as you can with your number sentences, try to avoid just using times table facts.

Don't forget to share your work with the Y6 team using the email address njs.year6@taw.org.uk

You can either print this version out or be even more creative and design your own?

Fancy a challenge? Why not create some more boxes linked to Maths all about you?

- Year of birth
- Age of parents
- Number of windows in the house
- Number of books you've read
- Etc 😊
